## WHAT IS MOSS?

GAF moss are 100% natural and real moss which, right after the harvest was preserved with specially prepared solution . It is put through an eco-friendly industry-guarded process that allows it to retain its soft, flexible organic texture while expanding its life span of more than ten years without water or sunlight.

There are several types of preserved moss that we use to craft unique, maintenance free designs in commercial spaces across the Middle East.

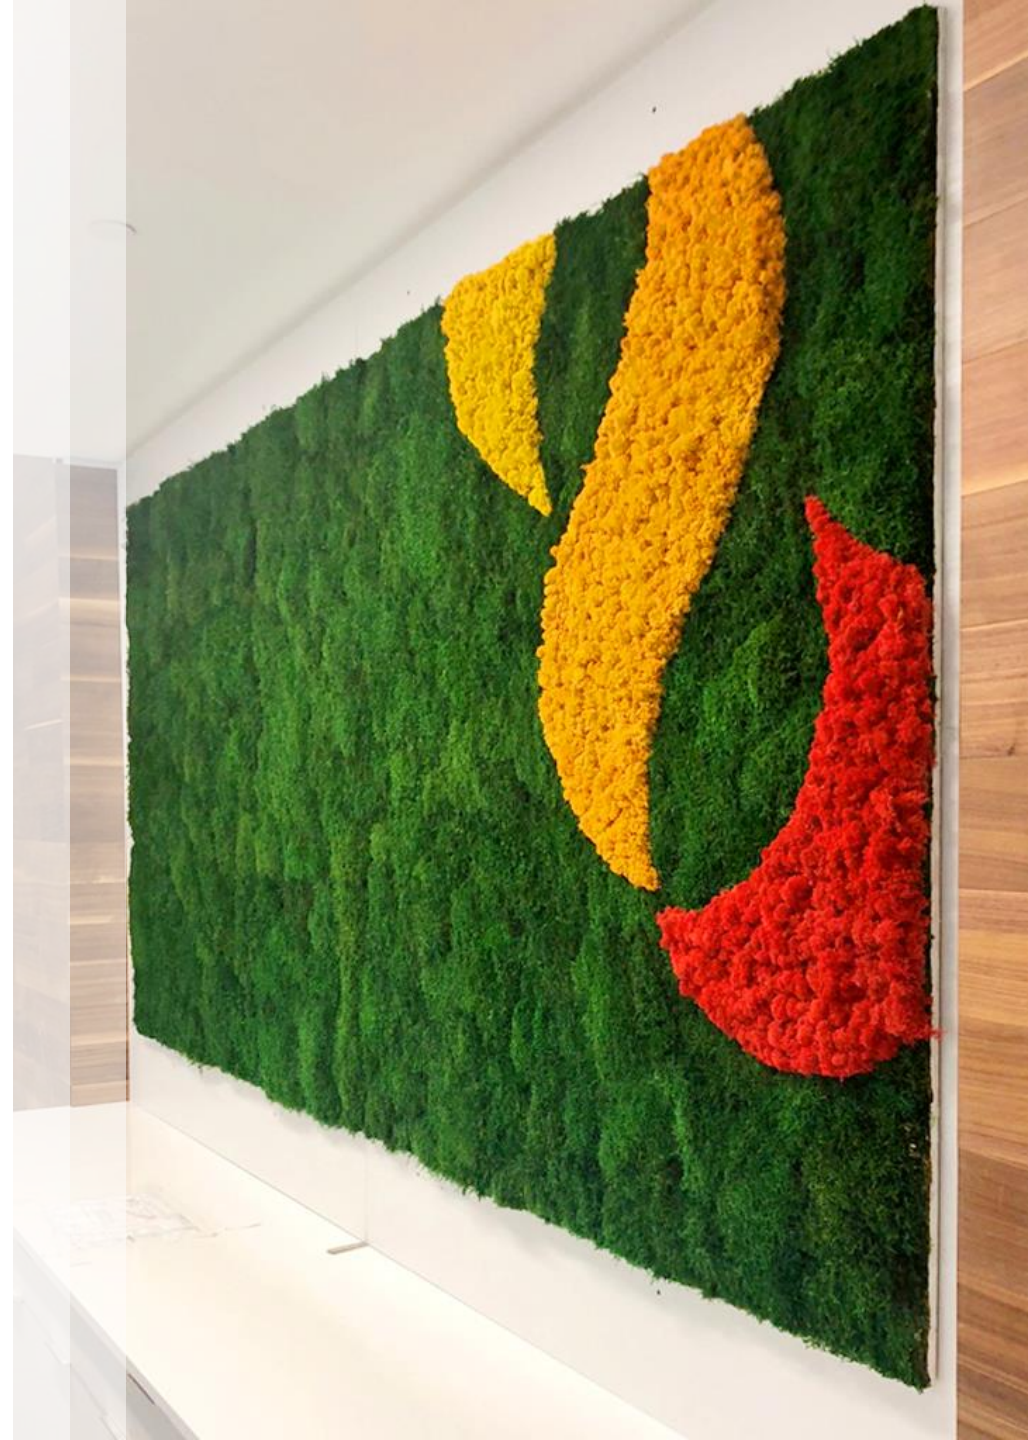

## GAF Preserved Moss For Decorations & Green Walls.

Preserved Moss walls and moss decorations are currently one of the most popular trends among top interior designers - interior decorators. Apart from adding a pop of green to the décor, it enhances the liveliness of the ambience with its intense natural energy

# BEWARE OF CHEAP MOSS!!!!

Our luxury Premium Moss is the highest quality of preserved moss in the world.

Which is very soft to the touch and retains its properties for many years, always looks natural and juicy color while cheap moss is preserved in cheap salt - it is dry and looks dull.

Please do not confuse our Premium Quality Real Preserved plain Moss and 3D moss with some cheaper moss of unknown origin available from competition or on trading platforms.
